

Digital Payment Solutions

# QR Acceptance for Issuers

While major retailers are adding closed-loop payment options to their checkout offerings, ensure that you are making the most of your store of value. Get your wallet accepted at small, medium, and large retailers. With Electrum you can easily and quickly leverage the existing QR network to grow your payments offering.

## Grow Your Wallet Acceptance

### Major Retailer Exposure

With Electrum's existing retailer footprint, easily take your brand into the tier 1 space.

### Rapid Rollout

Get solutions to market fast by leveraging existing QR rails implemented by major retailers.

### Enhanced experiences for your customers

Engage customers through app-based payments, and let them enjoy the superior QR digital payment experience.

## Electrum's Expertise

Electrum has a proven background of expertise and implementation, with an established network that ensures cost-effective routing for your transactions.

**Software as a Service Solution**

**Masterpass Ready**

**Rapid Integration Capabilities**

# Electrum's QR Aggregation Solution

Electrum generates the QR code for a simple and effective transaction flow.

By following EMVCo standards, you can easily join many major retailer payment options.

## Why Utilise Dynamic QR Codes?

## Electrum and Masterpass

Electrum's integrated QR acceptance solutions seamlessly aggregate all payment types with one QR code. We have worked closely with Mastercard to optimise our solution to ensure it follows EMVCo principles.
